

# 14 x 12 x 6” NEMA 4X, Heated, Single Line PoE+ Enclosure for Cisco 9130AXE

Heated Enclosure w/o Integrated Omni Antenna

Heated Enclosure w Integrated Omni Antenna

Ventev’s PoE Powered Heated Enclosure System is a plug-and-play solution engineered to enable the use of Cisco indoor 9130AXE AP in freezer/cold storage and outdoor harsh environments. The NEMA 4X enclosure is 14 x 12 x 6” and engineered with controlled heating element that keeps ambient temperature of the enclosure within manufacturer specified operating temperature. This solution is offered either with a Clear Door or a Solid Door and can utilize an integrated Omni antenna or an external Patch or Omni antenna, mounted independently. A single PoE line powers both the AP and the heating system. *Every Ventev enclosure is covered by the company’s two-year TerraNet warranty program.*

**For more information or to purchase, contact Ventev:** 800.851.4965 or sales@ventev.com.

## FEATURES AND BENEFITS

- Extend Wi-Fi into freezer/cold environments using indoor AP reduces overall project budget
- Integrated solution ready for plug-n-play offers quick installation and cut-down on overall deployment costs
- Compact, durable, weatherproof, NEMA 4X-rated enclosure, constructed of a high-quality polycarbonate plastic that is UV resistant, corrosion resistant and sustainable in broad temperature ranges
- Eliminate the need for costly AC power deployment, midspan PoE injectors and the need for additional switch ports with a single line PoE-only powered solution
- NEMA rating of enclosure only, before modifications and additions
- Ensure aesthetically pleasing appearance with a compact fully integrated solution
