

Hanging Conduit Mount

Ventev's Hanging Conduit Wi-Fi Access Point Mount allows for Cisco, Aruba and Meraki* wireless access points to mount directly to a conduit hanging from the ceiling. Ideal for environments with high ceilings, the Hanging Conduit Mount has a hinged cover that allows for easy access to perform maintenance and allows for the storage of excess ethernet cable. Also includes a positive lock for Cisco and Aruba Access Points to ensure the AP is securely attached to the mount. Constructed of Lightweight Aluminum. Accepts 3/4" conduit (3/4" ID, 1.03" OD). Conduit not included. *Every Ventev enclosure is covered by the company's two-year TerraNet warranty program.* **For more information or to purchase, contact Ventev:** 800.851.4965 or sales@ventev.com.

**NOTE: Mounts Meraki MR33, MR42, MR45, MR52 and MR55 using the Meraki Adapter Plate, sku 231728. See page 2 for drawing.*

SPECIFICATIONS

Sku:

211234

Product Number:

TW-HC-MNT

Dimensions:

9" x 8" x 4"

Weight:

11 lbs

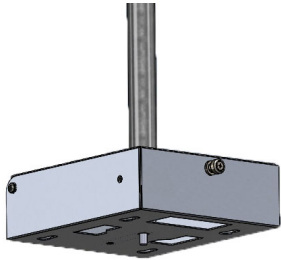

Construction:

Aluminum 5052

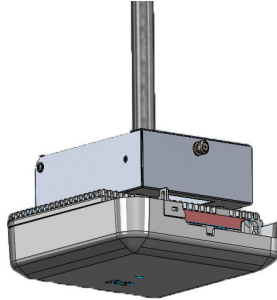

FEATURES AND BENEFITS

- Allows AP to be mounted in the horizontal plane to a conduit hanging from the ceiling for coverage in open environments such as warehouses and industrial facilities
- Accepts 3/4" Conduit (3/4" ID, 1.03" OD)
- Positive locking mechanism secure Cisco and Aruba access points to the mount and prevents them from falling
- Hinged Cover allows storage of excess ethernet cable
- Easy to install. No tools required to secure Cisco or Aruba APs
- Provides an economic mounting solution for a challenging environment
