

Wi-Fi Ceiling Tile Enclosure with AP Cover for Common Larger APs

CTEN with White AP Cover
 Tessco No. 297204
 Product No. V2-ID-CTEN-LDWHT

CTEN with Semi-Transparent AP Cover
 Tessco No. 269265
 Product No. V2-ID-CTEN-LDCLR

SPECIFICATIONS

Dimensions: 23.75" x 23.75" x 6"

Construction:

Constructed of powder-coated aluminum

Weight:

4.5 lbs

Compatible Access Points:

Cisco	4800, 9100 Series
Aruba	500 Series

Ventev's Ceiling Tile Enclosure with AP Cover provides an aesthetically pleasing solution to deploy indoor access points in a suspended grid. The enclosure is compatible with most common large access points including Cisco 4800 and 9100 Series, and Aruba 500 Series. The enclosure fits both standard or Tegular suspended ceilings.

The Interchangeable Door allows you to replace only the door for future AP upgrades, saving significant time and cost.

Ventev's CTEN product line is compliant with UL 2416/CSA 60950, OSHPD requirements and meets NEC300-22 and 300-23 standards. One design fits most APs in market.

FEATURES AND BENEFITS

- Easily fits into any 2' x 2' or 2' x 4' ceiling tile grid
- Lightweight enclosure reduces strain on ceiling grid to accommodate the increased weight of the AP
- Interchangeable door simplifies migration to new APs without changing the enclosure base
- Aesthetic, sleek form factor design blends enclosure and bulkier AP seamlessly within existing ceiling tile grid
- Minimal components allows for simple installation—no modification of existing ceiling tile grid required
- Designed to allow the AP to be serviced without removing enclosure from ceiling tile grid
- Enclosure back box protects against dust and debris to assist in compliance with ICRA requirements
- Safe to deploy in plenum/air handling installations
- Includes integrated mounting tabs to assist in securing enclosures to permanent fixture or structure
- Includes key lock for additional security and cord grip
