

24x24x10 Polycarbonate Enclosure

TerraWave's 24" x 24" x 10" enclosures are the largest NEMA 4X polycarbonate enclosures that TerraWave offers and are ideal for protecting wireless and other equipment from damage caused by tampering, theft and the outdoor elements. They are lightweight, easy to modify and perfect for outdoor applications. The enclosure interior offers numerous mounting surfaces for equipment and comes with a frame stiffener, four interior rail stiffeners, two mounting flanges and four latches. *Every TerraWave enclosure is covered by the company's two-year TerraNet warranty program. For questions and to purchase product, contact a regional sales executive at 210-375-8482, 800-851-4965 or sales@terrawave.com.*
