

## 12"x24"x7" Universal Ceiling Tile Enclosure

Ventev's 12" x 24" x 7" universal plastic ceiling tile enclosure contains and protects an access point (AP) in an aesthetically pleasing and stealthy solution within a 1' x 2' or 2' x 2' (by using the included insert) suspended ceiling. Constructed of UL 94 rated ABS\*, this enclosure allows RF transmissions to penetrate with little or no attenuation, making this an excellent solution for access points with integrated antennas. The enclosure is also deep enough to hide and secure an access point using rubber duck antennas. Designed to meet NEC300-22 and 300-23 for installation in plenum/air-handling areas and includes two door inserts, two cord grips and flexible mounting plate heights to accommodate many manufacturer's enterprise-class APs.

*Every Ventev enclosure is covered by the company's two-year TerraNet warranty program. For questions and to purchase product, contact Ventev: 800-851-4965 or sales@ventev.com*

Door with clear window insert

Door with vented insert

### Enclosure Specifications

Part Number: TW-CTEN-P

Size: 12" x 24" x 7" (24" x 24" x 7" with insert)

Weight: 7.5 pounds (9 pounds with insert)

Constructed of light-weight, fire retardant acrylonitrile-butadiene styrene (ABS) plastic

Comprised of UL 94 V0-rated raw materials

Designed to meet National Electric Code (NEC) 300-22 and 300-23 for plenum installations

Servicing the AP can be completed without removing the enclosure from the ceiling tile grid

Adjustable backplate pre-drilled for Cisco APs with self-tapping screws to accommodate other manufacturer's APs

Ships with a 1' x 2' insert to fit either a 1' x 2' or 2' x 2' ceiling tile grid

Two Quarter Turn Locks

Clear window and vented door inserts

Includes hardware to secure the enclosure to permanent fixture or ceiling structure

\*Enclosure is manufactured using UL94 V-0 rated resin
