

Saddle Bracket

Ventev's Saddle Bracket is engineered for, and field-tested by major utilities for quick, reliable installation of Silver Spring® and other outdoor radios that transmit data. The unique Saddle Bracket co-locates components such as batteries and antennas with the radio for faster, less expensive deployments. A universal, slotted mounting plate allows for flexible, precise articulation. Constructed of durable, rust and weather-resistant aluminum iridite making it an ideal choice for use in harsh environments.
