

24x24x4 Universal Ceiling Tile Enclosure With White Bubble

TerraWave's 24x24x4 Ceiling Tile Enclosure has a flush edge that seamlessly blends with the existing grid layout, creating a consistent, aesthetically pleasing finish. With an integrated white bubble and universal T-Bar back plate, this enclosure can comfortably fit most indoor access points and provide protection from tampering. The enclosure conveniently slides into the ceiling tile grid and can be installed by one individual, making large deployments simple and timely. This enclosure meets NEC300-22 and 300-23 standards for plenum/air-handling installation making it ideal for any indoor deployment, including healthcare and education facilities. Designed using powder-coated aluminum, this lightweight enclosure reduces the stress and bowing of your ceiling tile grid, ensuring safe and reliable installation. *Every TerraWave enclosure is covered*

CTEN-2x2-11113F-W*

Enclosure Specifications

- ◆ Size: 24" x 24" x 4" dimensions that easily slide into any 2' x 2' or 2' x 4' ceiling tile grid
- ◆ Constructed of powder-coated aluminum, making it a lightweight solution
- ◆ Includes Universal T-Bar Back Plate to accommodate most access points
- ◆ No moving parts significantly reduces failure rates
- ◆ Meets NEC300-22 and 300-23 standards, making it safe for plenum/air handling installations
- ◆ Includes key lock for additional security
- ◆ Sleek form factor allows for simple installation—no modification of ceiling tile grid required*
- ◆ Designed to allow AP to be serviced without removing enclosure from ceiling tile grid
- ◆ Meets common building code requirements by including integrated holes for securing enclosure to permanent fixture or structure

System Highlights

- ◆ RF friendly bubble enclosure eliminates interference
- ◆ Completely conceals and protects AP
- ◆ Simple, one-man installation
- ◆ Minimal strain on ceiling grid
- ◆ Universal T-Bar Back Plate

*For installation in a 2' x 4' ceiling tile grid, ceiling tile must be cut in half. A 2' section of ceiling tile grid is provided.
