

## Horizontal Wi-Fi Mount with Large Bubble

Ventev's Horizontal Wall Mount Enclosure with Clear or White Polypropylene Bubble and hinged T-bar backplate is designed to provide optimal Wi-Fi coverage in high-ceiling structures. With an integrated bubble, this enclosure can comfortably fit most indoor access points and provide maximum protection from tampering without RF interference. The enclosure can be horizontally mounted on a wall, making it ideal for warehouses, hospitals, campuses and universities. Designed using powder-coated aluminum, this lightweight enclosure is easy to deploy and ensures safe and reliable installation.

*Every Ventev enclosure is covered by the company's two-year TerraNet warranty program. For questions or to purchase product, contact Regional Sales Executive at 210-375-8482, 800-851-4965 or sales@ventev.com.*
