

ventev[®]

PRODUCTS & SOLUTIONS FOR
Healthcare Wireless Networks

“The ceiling tile enclosures solved the installation challenges we had. And I can’t say enough about Ventev. They went above and beyond to get us the product we needed on a very tight timeline.”

William Lawrence,
IT Project Manager
Georgia Institute of
Technology

Unique challenges in healthcare environments require future proof solutions for wireless network deployments, including:

- RF-Blocking Areas
- Outdoor/Campus
- Lobbies and Auditoriums
- Patient Rooms/Hallways
- Aesthetic Solutions
- Wi-Fi 7/Tri-band Solutions

RF-Blocking Areas

Wall Mounts

Wall mounts position access points for optimal coverage and protect from tampering and theft, dust, and accidents.

Indoor Directional Wi-Fi 7/ Tri-band Antennas

Choose from a wide range of aesthetically pleasing indoor antennas with high, medium, and low gain to improve Wi-Fi user experience.

Mini Ceiling Omni Antenna

Provides a high-performance, aesthetically pleasing alternative to installing bulky access points with integrated antennas on the ceiling.

Mobile & Ultra Wide Band Antennas

Small form factor mobile antenna installs on mobile work stations to enable high-performance video and data transmissions.

Patient Rooms & Hallways

Access Point Covers

Conceal and protect access points from damage caused by theft or tampering. Mounts on the ceiling or wall.

Ceiling Tile Enclosures

Allows access to the access point without disrupting the plenum space above the ceiling, simplifying compliance with infection control regulations and is also OSHPD certified.

Flush Mount Enclosure

Lightweight enclosure for hard cap ceilings provides an aesthetically pleasing solution and protects the access point from tampering.

Campus Wi-Fi

Outdoor Wi-Fi 7/ Tri-band Antennas

Choose from one of the largest selections of outdoor antennas available to support demanding outdoor applications.

Integrated UPS Power Systems & Power Extenders

Extend your enterprise network throughout your campus and enable continuous operation of access points and surveillance cameras installed on light poles with intermittent AC power supply.

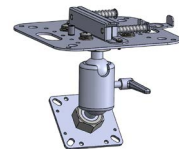

NEMA Enclosures

Secure and protect equipment from theft and tampering with Ventev's line of Wi-Fi enclosures. Allows you to safely and securely deploy Wi-Fi access points in any environment. Order fully-integrated with temperature controls, antennas, jumpers, and lightning arrestors.

Lobbies & Auditoriums

VenFlex™ Mount

Mount access points or antennas where you need them simply and efficiently.

Small Form Factor Wi-Fi 7/ Tri-band Antennas

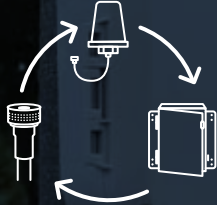

One third to one half the size of traditional antennas, as small as 3x3 inches four lead tri-band antenna almost invisible in many deployments.

Junction Box Wi-Fi 7/ Tri-band Antenna

Housed in a standard electrical box, the Junction Box Antenna provides aesthetically pleasing Wi-Fi without sacrificing performance.

WHY CHOOSE **ventev**[®]

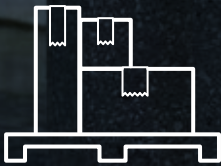

Industry-leading product lines that provide a comprehensive ecosystem of wireless products

Products for every major radio/AP covering Wi-Fi, DAS, CBRS, LTE, SCADA, & two-way

Easy-to-install & Pre-configured, fully integrated solutions

Large inventory of products, ready to ship

Professional product training & educational materials

Customer support with exceptional product and industry knowledge

After you choose the radio

choose **ventev**[®]
